Summary of Differences:

The Windsor gown, our highest quality gown, comes in either blue or black Chromspun (a silk-esque material made of 100% Acetate). Options are available for the velvet paneling and accent piping. The official UC PhD gown is a Windsor gown in blue with blue paneling and gold piping. The Windsor gown in blue is available for PhD graduates only. All other doctoral recipients would order the Windsor in black with the choice of either black, or degree color velvet paneling, and either black, or gold accent piping.

The Sussex gown comes in black with either black, or degree colored paneling (blue if PhD from UC). This gown is available in both Chromspun, and in a cotton polyester blend with either black or, gold accent piping.

The Devon gown is the most basic gown. We receive this gown for rentals. The gown is black with black paneling and no accent piping. We do not have samples of this gown displayed in the store, however it is the standard rental gown.
